PUBLISHER'S NOTE

In presenting this Plat Book of Mason County, Michigan, to the public, we have endeavored to produce a work as accurate, as complete and as comprehensive as the unlimited expenditure of time and money and expert workmanship would permit. Not only in the drawing, engraving and advertising features have we excelled, but also in the construction and compiling of the Maps, and Directories. In securing the information and data, no time or expense has been spared.

In the Township Maps it has been our aim to depict the names of all property owners who own twenty acres of land or more in the township; whereas, the Directories include the names, addresses, etc., of all rural residents at the head of the family, regardless of whether they are renters or freeholders.

EXPLANATIONS OF ABBREVIATIONS, ETC.

In the Township Directories, note that the first column is reserved for "Name" In this column is represented every rural resident, who is the head of a family. The title of the next column, "Class" is an abbreviation for "Classification." and its purpose is to distinguish the renter from the freeholder; the letter "R" referring to renter and the letter "F" to freeholder. The next column headed "Sec." is an abbreviation of the word "Section" and the figures which appear in this column denote the section in which each party resides. Please bear in mind that, in most cases, the largest part of a person's land is in the section in which he resides, but that fact is disregarded here and the section number given in this column is intended to show only in what section he resides. The next column "Acres" pertains to the number of acres in the county actually owned by the freeholders. Observe that the acreage given pertains not only to the land owned in the given section or even in that particular township, but covers the total number of acres owned by said freeholder throughout the entire county. Needless to say, the next column "P. O. Address" gives the Post Office Address and Rural Route number.

When additional information is given, like the following: "Feeds two cars of Cattle and one of Hogs," or "Feeds six cars of Stock" or "Ships three Cars of Cattle" or "Feeds and Ships five cars of Stock," it means that said farmer has been accustomed to feeding and shipping so many car loads of cattle, hogs or sheep as the case may be, to some near by livestock market, or to any purchaser at one time or several times every year. The amount stated does not necessarily imply that so many car loads were fed last year, or that so many will be fed this year, but is simply the general average given in most cases by the farmer himself.

The meaning of the phrase "Breeder of, etc., etc.," indicates that said farmer is a breeder of pure bred registered stock.

When a name like "Prairie View" or "Hillside, etc.," is given, it refers to the name of the farm.

In closing, the publishers desire to repeat, that while it is almost certain that mistakes have been made, we believe, however, that we have made the entire publication as simple, as comprehensive and as accurate as possible, and we sincerely trust that it will serve each of you for many years to come.

We thank you heartily for your unanimous co-operation for it is only through your able assistance, that we have been able to produce this work so well.

EVERY FARMER

Should Have a Bank Account.

BECAUSE Your money is safer in the Bank than anywhere else. It gives you a better standing with business men.

Money in the Bank strengthens

A Bank account teaches, helps and encourages you to save. The Bank does all the bookkeeping.

Your check book is a record of your business.

This Bank is helping the farmer and the man who wants to become a farmer.

We invite you to open an account with us, and your interests will be carefully considered.
